

GESUNDNAH

The AOK Family Doctor Programme.

For more extensive
consultations and better
medical care.

Receive the best treatment: with the AOK Family Doctor Programme.

The vast majority of AOK members see their family doctor first when they have health problems. This makes the family doctor more than just an important confidant who has access to valuable and constantly growing knowledge about the patient. He is also your guide and partner when it comes to doing the right thing for your health.

The goal of the AOK Family Doctor Programme is therefore to strengthen the relationship between your family doctor and you as a patient – through more time for personal consultation, an even higher quality of treatment and a number of other benefits, from which both sides profit.

Exclusive and free of charge to all AOK members

Here is how to find family doctors in your area who participate in the AOK Family Doctor Programme.

Choosing the right doctor is an important decision. That's why we make it easier for you at **hausarzt-suche.de**

Of course, the AOK Customer Centre near you is also glad to assist you with your questions about the **AOK Family Doctor Programme**.

So that your family doctor can give you even more personalised advice and offer better treatment.

With the AOK Family Doctor Programme, we create the best conditions for optimal medical care.

That's because the doctors participating in the program always stay up-to-date on current medical science through regular training and advanced education.

In addition, your treatment is always tailored exactly to you. Your family doctor forms a comprehensive impression of your overall health situation based on a thorough consultation. In most cases, he then administers the appropriate treatment himself or, if necessary, he refers you to the right specialists for a more advanced diagnosis.

And this is how it works:

1. Find out at your AOK or at **hausarzt-suche.de** which family doctors in your area participate in the AOK Family Doctor Programme
2. Make an appointment with one of the participating family doctors and enrol there in the AOK Family Doctor Programme
3. As soon as you are a member of the AOK Family Doctor Programme, you should always consult your family doctor first for health issues.* The commitment period is 12 months

* In emergencies, you can, of course, see any other doctor or go directly to any professional emergency service. This also applies to emergency care outside of Baden-Wuerttemberg or while on vacation.

The benefits of the AOK Family Doctor Programme at a glance.

- Higher quality treatment since your family doctor is always up-to-date and knows your treatment history first hand
- More time for personal consultation
- Your treatment is comprehensively, and thus better coordinated by our close network of treatment specialists
- As a working person, you may take advantage of evening office hours once a week until 8:00 p.m. by appointment
- You have a shorter waiting time in the doctor's office (maximum 30 minutes)
- You can use the annual health exam "Check-up 35" that includes additional laboratory tests
- Many discounted medicines are without copayment for you

- Costs covered for non-prescription medications that are only available at the chemist's for AOK members from 12 up to and including 17 years of age*
- The AOK 18+ check-up for risk detection and preventive healthcare is available free of charge for AOK members from 18 up to and including 34 years of age

* Upon prescription by the doctor participating in the AOK Family Doctor Programme.

**Would you like to have even more benefits?
Then it would probably be best to opt for the AOK
Specialist Programme as well.**

Your AOK participating family doctor will gladly help you and can sign you up directly. In addition, your AOK will be happy to assist you as always by telephone at 0800 2652965.

So that your family doctor can spend
more time with you:
